

# RIVER OAKS DANCE

## OUR GUIDE TO HAPPY, HEALTHY DANCING

River Oaks Dance intends to comply with, at a minimum, the guidelines set forth by the Texas Department of Health and Human Services and, to the extent they are more stringent, the guidelines of the locations where we teach class to keep our dancers and staff healthy. We take pride in our program and how it operates. This is where we are right now, but things may change as the situation changes. We will keep you updated on what is happening through email.

### St. John the Divine

**Classes are currently limited to 8 students per class.**

#### **Upon arrival at the church**

You will meet us outside with your child at the double glass doors in the circle drive facing River Oaks Blvd.

#### **Only dancers will be allowed to enter the church**

Parents will wait outside while their child is in class. However, one parent/caregiver will accompany the children in the Mommy & Me class. Our group is limited to 10 in the building (8 dancers and 2 instructors).

#### **Temperature check**

Temperature will be taken of students and teachers before each class and must be below 100.4 to participate in class.

#### **Sanitize hand before and after class**

We will provide sanitizer for the children to sanitize their hands before entering and upon exiting class and as needed during class.

# WHAT PRECAUTIONS ARE WE TAKING?

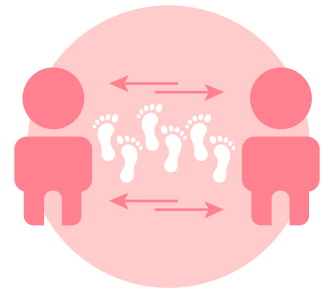

## Students are required to wear masks in class.

Students over three years old are required to wear masks in St. John the Divine. With in-person learning starting at schools shortly before or after ballet starts and until the students have a better sense of physical distancing within our dance space, we feel this is the best way to ensure your child's safety. We understand they are young and it may be hard for the little ones to wear a mask, but we will work with them and take "mask breaks" as needed. Teachers and parents are required to wear a face mask at all times in the building.

## Stay in your individual dance zone

We will make every effort to keep the children at least six feet from one another in our dance space and will have a specific physically distanced spot for each child to participate in class. We use lots of props in our younger classes and I will have a personal prop package for each child to take back and forth to dance class. Prop Packages are \$25 and will be charged to your account.

## Sanitizing procedure

Studio surfaces will be sanitized between class in addition to the continuous daily cleaning by SJD staff.

## In case of a teacher or student testing positive for COVID

If a teacher or student tests positive for COVID, the class will be notified and the individual may return to class when all three of the following criteria are met: 1. at least 3 days (72 hours) have passed since recovery (resolution of fever without the use of fever-reducing medications); and 2. the individual has improvement in symptoms (e.g., cough, shortness of breath); and 3. at least 10 days have passed since symptoms first appeared.
